Whaling voyage in the Atlantic Ocean

Thursday Sept 25th Lat 37.07 Long 13.34
Still with sails reefed in company with the
same mill part more or less the part mi
mind it was making water in the ship
was the pumps constantly in use

Friday Sept 26th Lat 37.11 Long 12.11
Commences pleasant with light winds
in the forenoon at 3 P.M. and stowed back the ship
during the N.E. Watch in with
P.M. and latter part good weather found a leak
in the Starboard on the Port side would not
keep under and could not get at it the vessel has
leaked so since taking out the Oil and while
the Casks were out and rolled after it run but a
little and think it is in the oil can
stopped in Port at work Thing apparently

Saturday Sept 30th Lat 36.55 Long 13.5
This day comes with good winds and weather all day
standing by the wind heading S.W. Shortened
down main sail and latter part calm all night
lying up north and down in the night
in sight

Sunday Oct 1st Lat 36.41 Long 14.35
Begins with light airs and variable
and the part of the day E.S.E. & E. during P.M.
was also a Breeze and fine weather
standing on as night

Monday Oct 2nd Lat 37.02 Long 14.45
Hill Storm this day comes with a
fair wind and fine weather and
was not able to keep under
to the wind by Hampers and latter part calm

Could not get the oil ashore to day selling
up shook for water

Wednesday May 30th
Did not get the oil off to day selling up shook
two Pilotsman came in to day @ Brig got
afoul of us but got off without doing any damage

Thursday May 31st
The Launce came and took the oil to shore
also to boat of water from shore run it down
in the hole

Friday June 1st
Employed in stowing oil and getting water
got the ground tier full

Saturday June 2d
Got the balance of water and finished stowing
off the hole

Monday June 3d
Cleaning off outside the watch going
ashore on liberty got no news or letters from
home here

Tuesday June 4th
The other watch gone ashore squally weather
could not paint got off our recruits

Wednesday June 6th
Finished painting this day and before
noon got some staying pins from the Atto a the
(2) boat mast

Remarks on board Bark Peter on 1st

Thursday June 7th
Finished painting today got some sights to regulate the Chronometer

Friday June 8th
Setting up rigging and doing other work

Saturday June 9th
At work in the hold stowing away got a Boat mast from the Bark Wave

Sunday June 10th
Good weather got some more altitudes to regulate the Chronometers the vessel ready for sea intending to get underway as soon as possible to morrow

Monday June 11th
Still good winds and weather got the stern clear hove in fifteen fathoms of chain moored the Topsails took off yard arm gaskets loosed fit and Spanker waiting for the Capt

Tuesday June 12th
At one o'Clock the Capt came on board, at 2 P.M. the Capt took his Boat and went to asscertain if there were any Letters by the american Brig just arrived and I commenced getting underway hove in on the chain to 25 fathoms and let fall the Topsails and sheeted home when the anchor started and Ship drifting round the Barn Pier tacked the fore Topsail and sheered off but just touched the Wave fit Broom but done no damage of moment hove in quickly and got the anchor up, mean time, making all sail to clear around there us[e]less fearing.

Whaling voyage in the Atlantic Ocean

to be plenty of sea room for the manuver accomplished it and was standing off close hauled when suddenly the ship took the bottom about after she struck the Capt came on board and immediately ordered the anchor to be carried off which was accordingly done and hove a taught strain but without effect we then run off the sickest and then the third anchor and used every exertion to get the ship off but the heavy sea and a strong current setting towards the rising ground we could not move her we then run a hawser from our Port Quarter to the Bark Rose and put tackle on and hove well taught to keep her stern from heaving up any higher on the shoal we then started all of our water overboard except a little for present use the tide falling the ship commenced laboring heavily at 9 P.M. got purchase on anchor and hove well taught keeping on next High Water to be able to heave her off at 12 P.M. High Water hove in on the purchase and hove her off a little but she stopped again we suppose against another rock ship striking heavily and comencing to leak considerable at 6 A.M. sent main Royal and Fore Gallant yards and mast down at 8 A.M. got a lighter along side to lighten the ship comenced discharging into the Lauzer the heaviest of our provisions filled the first and got the second alongside the ship laboring very heavy pieces of the fall keel coming up and the copper badly wrinkled on the ship side at 10 A.M. weighed the Starboard anchor by a Boat and take sent the cutting fall on and took it out on the Port Quarter put tackle on and

Remarks on the Sterling voyage in the
manner as taught at point & also put a purchase
on the hawse from Bart. Have two anchors
out on the Port Bow and one anchor and 2 hawsers
on the Port Quarter commenced discharging
again at 12 A.M. the ship righted and steered very
easy

Wednesday June 13th
Discharging and lightening her in every possible
way at two pitched the lighter one of the Bow hawsers
parted at half past two shortly after the second
parted the sea heaving the ships head on shore
the tide rising can se pieces of the keel copper
and sheathing lying on the bottom. at 4. P.M.
High Water put a double purchase on the
stern anchor & Sail Boat having run aground and
cut the hawse to the Wave the ship started very
slowly at first but at five oclock she was clear
of the bottom, run a line to the Wave hauled the
anchor up to the stern hauled the ship into a berth
let go the starboard anchor paid out two fm of chain
the ship leaking 8 or 9 strokes pr day at 11. A.M.
Captains Briggs Willis and Carpenter Morrison
came off on a survey and stoped on board two
hours

Thursday June 14th
The rester taking about the same sent down
the cutter and at work below

Friday June 15th
Mr Rowe the running rigging at 6 A.M. & light.
came off, filled it and put the remainder
in a second yawl all the crew on shore
sent down Fore Top Gallant Mast and
Fore Top Sail yard and mast

Bark Falcon in the Atlantic Ocean

Saturday June 16th

Sent down Main Topsail yard mast and Top gallant mast rigged in the fish Boom sent down Mizzen Top mast and made them fast on deck put the Sails and rigging below cleared up the decks and washed off Received orders to heave up in the morning and warp into the Wharf made fast with chains ahead and astern the Second Mate gone to the Hospital. At daylight Hove up the anchor and warped in and commenced landing every thing on the Wharf finished at 11 oclock at Three O.clock P.M. the vessel was sold. Discharged all hands and this winds up this voyage. This days work contains 28 hours.
